

The Society for Family Health (SFH) is a local non-governmental organization that implements public health programs in collaboration with the Ministry of Health and Social Services, other Ministries and partners. SFH has 9 regional offices and work in the areas of HIV/AIDS prevention care and treatment, Malaria prevention, school health promotion, adolescent girls and young women's sexual and reproductive health.

Position: Community Health Nurse:

1 x Walvis Bay

Overall Responsibilities: The Community Health Nurse will work under the supervision of the Clinical Director to provide leadership in the provision of community-based HIV prevention, care and treatment for key populations and other high risk groups. The incumbent will work with a team of staff members and community health workers. The position may involve evening or weekend shifts. Primary responsibilities of the incumbent include development of work plans, implementation and monitoring of planned activities; coordinate outreach services, ensuring stakeholders engagement, and provision of quality services in accordance with national policies and guidelines.

Requirements and qualifications:

- Should be newly nursing graduate not currently employed
- Nursing Qualification
- Registration with the Health Professions Council in Namibia
- Past experience in community-based HIV prevention care and treatment is not required as the incumbent will be trained through a mentorship program
- Excellent interpersonal and communication skills

SFH offers remunerations that are market-competitive

The closing date: **26 June 2018**
